

Keeping you moving!

Providing driving aids for the disabled.

C Goodall Engineering is Adelaide's Specialist in the manufacturing and installation of Hand Controls and driving aids for the disabled.

Installations are to SA Department of Transport standards. All our hand control systems are knee air bag compliant and are fitted with stainless steel heavy duty cabling.

We can fit out your van with a chair lift, your vehicle with custom aids, and get you back on your bike with an electronic shifter and stand. What ever your needs are, we can help.

We provide quality and personal service. Providing customers with peace of mind and a 'Lifetime Warranty' on all installations*. **Keeping you moving!**
